No. AIBSNLEA/OR/CGMT-OR/2010-11/ 02

Dt. 02.11.2010

To

The Chief Engineer, Electrical;
BSNL Electrical wing;
O/o The CGMT, Orissa;
BHUBANESWAR.

Sub: - Curtailment of expenditure.

Sir,

It is matter of concern to BSNL and its staff that the company is suffering losses day by day. It is a very serious matter to be taken care of , discussed and different channels are to be exercised to curtail the expenditure as far as practicable. Our Association has exploited a number of fields in this regard and few points are here by put forth with your unit for consideration and settlement.

- (A) I. It is seen that our circle is paying huge amount of electric bill for no-consumption by BSNL unit. As for example our circle office where the power supplies for PMG portion is not separated. We strongly object and demand immediate bifurcation of load and payment..
II. Other two units of DOT i.e. CCA and TERM are also functioning in our establishment for which energy bills are born by us. It must be immediately segregated and energy bill be claimed from them. Similarly uniform principle be adopted in energy meter for all the departmental quarters under BSNL or DOT for which BSNL is paying i.e. Electric line connection to quarter must be directly from electric supply company not via BSNL meter.
III. Special meeting be taken up with State Electricity Regulatory body to wave out the late fee if any, special rebate for BSNL as it gives service in rural and other public interest organizations.
- (B) It is seen that a huge number of utility items like Air Conditioners, tube light fittings are lying idle for a long time in different locations without use for years together. As for example more than 600 ACs laying at Sambalpur for last two years. 25 No. of high cooling ACs laying at Bolangir without use so far. Lakhs of tube light and fitting are also laying in Bhubaneswar, Sambalpur and other places. Since those are lying idle their warranty period is gone and if at all it is tried to install now contractor is taking a high amount for repair. Such losses are unbearable by BSNL. It must be taken care of with immediate effect.
- (C) It is seen that energy audit is not being done for all the BSNL establishments as per BSNL guide lines. The audit will save a lot of BSNL expenditure. We request to take up it soon.
- (D) It is also found that the expenditure incurred for CCA and TERM cell are not claimed. Our organization feels that this is wrong. If BSNL rule permits it, then a copy of order be given to us so that we will take up with appropriate authority.

Circle Secretary, AIBSNLEA, ORISSA.
